Hi, sorry to hit you again with another one, but....

The Council of Commissioners will be considering two letters at this week's Wed. council meeting. One is on Montana Pole Plant site. I know DEQ is the lead on that, but the letter is addressed to both Tom Livers and to Joe.

I am doing a story on the letter. It has to be voted on by the council and could undergo revision at the council meeting, but I wanted to ask if EPA will be at the Council meeting to hear the discussion and if EPA wants to comment on the letter?

Deadline end of work day on that one.

Secondly,

Councilman Jim Fisher has also entered in a communication requesting Chief Executive Dave Palmer to contact "ranking representatives of the EPA" and schedule their appearance before the Council to answer questions on West Side Soils.

Comment on that?

Deadline end of work day tomorrow.

Thanks,

Susan
